

Rules

1. Each player needs a deck of 50 cards
2. Each player plucks up 5 cards for his/her's hand
3. You must place a Nexomon down to battle
4. Look on the upper right hand side of your trading card, that number is your Nexomon's HP Health Points
5. Look in the center of the card your Nexomon should be equipped with 2 attacks go to the far right you should see a number
6. That number is the damage inflicted
7. Have a calculator or sheet of paper on hand if needed
8. The objective of the game is to subtract your Nexomon's attack points from your opponents HP Health Points while taking turns attacking each other
9. On each turn you may pluck 1 card just as long as it dosen't exceed 5 cards on your turn
10. You may put down 1 Nexomon at a time
11. When your Nexomon's HP Health Points reach 0 it is defeated
12. When your opponents Nexomon is defeated it goes into the grave yard pile
13. Keep your opponents and your graveyard pile seperate
14. Whoever deck runs out the fastest loses
15. The objective is to defeat your opponents deck
16. Alternate Rules you may also have 4 way battles 2 on 2 same rules except you & your opponent need a partner in which you take turns attacking each other
17. The order should be decided
